“ Betty was a great lady. She use to crack me up at the doctor's office and I never knew what color her hair would be next time I'd see her. She was truly a spirited lady and she will be greatly missed. So sorry for your loss.

“ I was fortunate enough to be a friend of Betty's through my friend, Dr. Tom Ray, D.C.. My wife and I were sharing with each other with regard to Betty and agreed that our most memorable, lovable trait she displayed was her loving and caring nature, especially with our child. When my daughter would accompany me to Higginsville to visit, Betty would always make sure to take my daughter to her treasured collection of stuffed animals and let her chose one to keep. The memories that we cherish are the ones that keep people alive and active in our hearts and everyday life. There are so many ways that Betty exhited this caring and loving nature, in fact, too many to list. This one, however, is a memory that I will always cherish in which Betty showed me the meaning of loving and caring for other people.
